GLOBAL LEADERS IN FINE BLANKING TECHNOLOGY

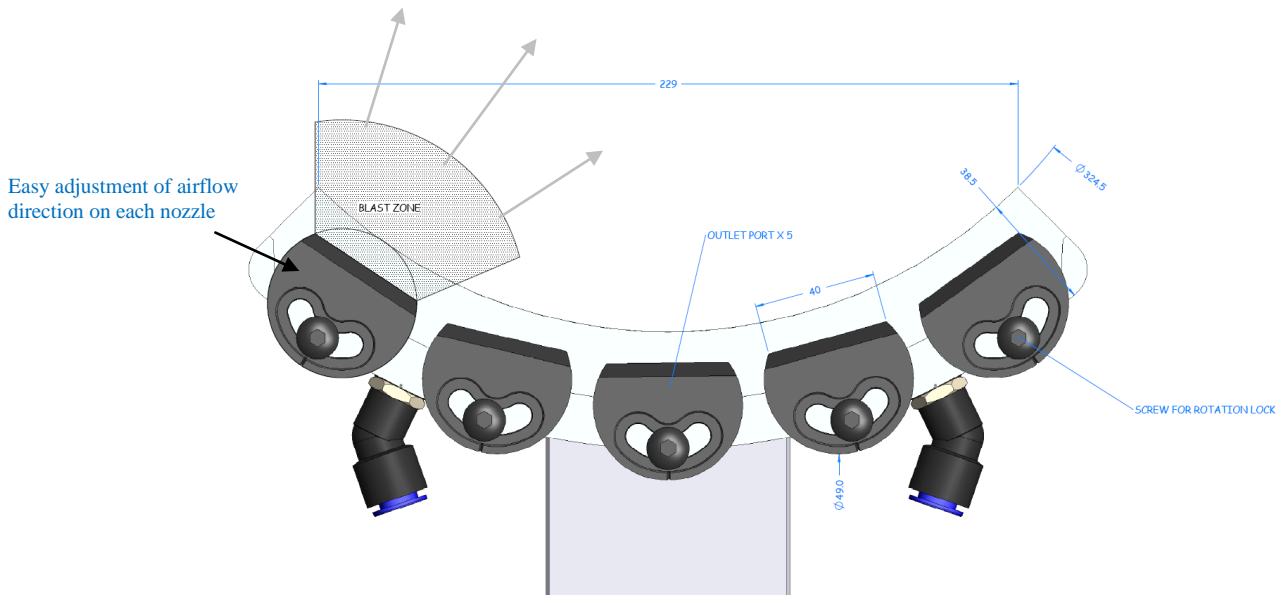

PRECISION ENGINEERS AND TOOL MAKERS  
FINE BLANKED PRECISION METAL COMPONENTS

## DC Ross Air Blast Ejection Manifolds

Efficient and consistent component ejection from automated production press tooling

Designed and manufactured to fit your existing press tooling dimensions

- Creates superior non turbulent airflow
- Efficient and consistent component ejection
- Faster tool stroke rate possible
- Curved to fit closer to tool cavities
- Efficient and consistent slug ejection
- Quieter operation

For further information and to discuss your individual requirements we welcome your contact
